

MALVERN COLLEGE EGYPT

A SCHOOL OF MANY NATIONS
BUT A FAMILY OF ONE
A BRANCH OF MALVERN COLLEGE UK

On Friday 5th May the MCE community came together to celebrate the many nationalities represented in our school, through the College's first International Day event. It was well attended by children, parents, staff and their friends.

There were a number of elements included, such as food stalls that were run by parents to provide guests with a truly international buffet. Our very talented students provided much of the entertainment, supported by external groups such as the amazing students from the African Hope Learning Centre. Additionally games and activities were devised and implemented by our older students for the younger ones to enjoy. Finally guests had the chance to pick up a bargain at our external vendor market.

The event raised money for 2 of the MCE House charities, and will help to develop our community service programme. In total we raised around 40,000 LE. It was a fantastic day and a great example of the community teamwork that we have already developed here at Malvern College, a school of many nations but a family of one!
