

MALVERN

COLLEGE EGYPT

QUALITY BRITISH EDUCATION
NOW IN EGYPT
A BRANCH OF MALVERN COLLEGE UK

Our visual arts teachers work within a purpose built department where students develop skills through hands on experience. The studio offers pupils an ideal environment that provides the opportunity to develop pupils' creative ability.

Pupils will be able to develop work using a wide variety of visual media that includes painting and drawing, sculpture, ceramic, textiles, printmaking, photography and digital media.

An Art qualification at GCSE and A-Level/IB can be used in many career paths, and our students will go on to study at prestigious universities that offer courses from Fine Art, Architecture, Graphic Design, Illustration and many more.
